# Problem / Question

How do I enrol a BYO MacOS device into Intune MDM?

# Solution

Intune is a secure mobile management system that allows you to access the school's network.

This KBA will show you how to enrol a BYO Mac device into Intune and install an application. This process may take up to 15 minutes to complete.

Before you start, please have ready the email address and password that has been supplied to you by the school. If you do not have this information, you will not be able to successfully complete the installation. Please see your school contact to obtain these details.

These instructions are for High Sierra or later versions of MacOS. You may find some of the screens look different to the ones provided here if you have an older version of MacOS or there are changes made to Intune.

If the installation fails at any time, please re-open the Intune app and try again.

**Please note**: If you have any problems with installing Intune or using it afterwards, please see your school contact for assistance.

### Step 1. Install Intune

To start, connect to the internet, open Safari and type in portal.manage.microsoft.com

Enter the @eq.edu.au email address you were provided by your school and select Next.

Sign in mstud259@eq.edu.au No account? Create one! Can't access your account?	Microsoft

b

Your username may auto fill or you will need to enter the school username and password you were provided. Then accept the terms and conditions and select **Sign in**.

A prompt will pop up asking if you want to stay signed in, select Yes.

Two options will appear. Either option can be selected.

- You don't have any managed devices or
- Tap now to tell us which device you are using or add a new device.

с

d

Please select **Download**. It may take a few seconds to complete.

Select the **Open box icon** at the bottom of your screen.

Then select the Open box icon next to the Company Portal Installar file.

h

f

#### Please select Continue.

Please read the license terms and then select Continue.

Select Agree to accept the license terms in the pop-up window.

i

j

k

#### Next, select Install.

Please enter your username, password of your device and select Install Software.

When the installation has finished, select Close.

n

1

Once the program has completed installing, please select Move to Trash or Bin option.

Confirm you want to approve the Management Profile and select Approve.

The system preference screen will be displayed and you can close this window.

The Intune company portal app window will still be open. Select Continue.

Confirm device management
You need to approve the installation of a Management Profile in System Preferences. This will let you access company resources from your Mac.
Open System Preferences
1. In "System Preferences", select "Profiles".
2. In the left-hand sidebar, select "Management Profile".
<ol> <li>Click "Approve" to allow Department of Education QLD to manage work settings on your Mac.</li> </ol>
4. Click "Approve" when the popup appears.
5. Come back to the Company Portal, then click "Continue".
Skipping this step will prevent you from accessing all company resources.
